Amsterdam Edge Data Center

EdgeConneX is a global leader in data center development and delivery, with over 40 data centers in more than 30 markets worldwide.

Our Amsterdam EdgeConneX campus is a large land banked parcel that currently houses four purpose-built data centers, with over 18,000 m2 available for a new data center build with capacity up to 40MW N+1. The campus is operational and power banked for up to five data centers capable of more than 100MW of power and over 44,000 m2 of building space capacity with a mix of multi-tenant colocation and build-to-suit single tenant facilities.

Our creative approach to data center delivery facilitates innovative distribution models that support your needs at the Edge of the Network.

This is one reason that the five of the largest businesses in the world by market cap all trust EdgeConneX to provide critical data center capacity and facilities worldwide.

Amsterdam is a hub for business and a pivotal point for Internet and Cloud connectivity. And EdgeConneX has a proven track record of delivering data centers at any scale, on time, on budget, and with the cooperation and support of in-market community and regulatory leaders.

Contact EdgeConneX today to set up a campus tour and learn more about the EdgeConneX Amsterdam Data Center Campus.

Campus Highlights

- **AMS01:** Colocation space available

- **AMS02 - AMS04:** Build-to-Suit

- **AMS05:** 18,116 m2 facility to be delivered to customer specifications

- **EdgeConneX Amsterdam Campus:** 9km from Schiphol; 24 km from downtown Amsterdam, a key gateway to Europe

EdgeConneX Benefits

Capacity

Staffed, state of the art data center with the flexibility to support deployments ranging from a single rack, to a large custom cage or pod, all the way to a build to suit data center any of which can further scale to meet future needs for growth.

Connectivity

Liaet L. Sate et intemquam st nihilinu se conit quam. Im ad Catilic oenimil icaestristea ad ia in hum ia? Riorbistri pro, que

Capability

Purpose-built Tier-3 designed facilities with superior operating reliability, high-density power, and carrier-neutral support to satisfy any customers challenges and demands.

Cloud

Technical Specifications & Configuration

Nusam, occatem hicienim asperum harum quos esecerro vel int fugitis vid ut et dolorem quati quaspe ipsam, te cor

Space

Campus: 5 data centers, over 34,000 m2 of total space, with over 16,000 m2 of completed data hall space

AMS01 Colo: 2,846 m2 in six data halls for tenant racks

AMS02: 4,603 m2

AMS03: 3,895 m2

AMS04: 5,140 m2

AMS05: 18,116 m2 facility to be built to customer specs

Within 24 km from downtown Amsterdam and 9 km from Schiphol Amsterdam Airport

Customer work space available

Space available for secure customer storage

WiFi network access and cell phone repeaters/boosters throughout the facility

Power

AMS01: 7 MW N+1

AMS02: 20 MW N+1

AMS03: 15 MW N+1

AMS04: 21 MW N+1

AMS05: 46MW N+1

Concurrently maintainable power in a minimum of an N+1 configuration to include: - PDU - UPS - Generators

Capable of 20+kW per cabinet

Capable of 600+ watts per sq m²

Ghost space not required for cooling power dense installations

Real-time branch circuit monitoring

Cooling

Temperature and humidity monitored, controlled and managed to industry standards

N+1 CRACs located in separate suites, maximizing customer designated areas

Security

Multi-stage security containment systems that use PIN and live video authentication

Mantraps and strictly enforced protocols regarding entry access

24/7 Color CCTV/video surveillance and >90-day online video storage

Interior managed security zones

National network operations center for security management

24/7 NOC services

Fire Suppression

Pre-action, zoned dry-pipe sprinkler systems with zoned maintenance aisles and separate suites

Network

Building POEs are diverse, with a variety of fiber conduits to physically diverse MMR's

Arelion, Colt Fiber, euNetworks, Lumen, GTT Interoute, NLIX, Relined, Vodafone Ziggo, Zayo

Interconnection services available including fiber and copper

Optional Services

Remote hands services for break fixes, configuration, and troubleshooting

EdgeConneX Services: design, build, implement, and maintain your equipment infrastructure

EdgeOS, our next generation data center operating system provides real-time visibility, including ticketing and SLA management for all EDC locations

Standards and Certifications

ISO 27001, PCI-DSS, SOC 2 Type 2, and ISO 14001
