Market Overview

The Pittsburgh EdgeConneX Edge Data Center® (EDC) has been purpose-built and precisely located in order to provide a secure colocation facility for customers wishing to deliver content and applications to local-market consumers, with the lowest possible latency. Partnering with network and cable operators at the local level, our carrier neutral facility guarantees the shortest and fastest routes for delivering content to local market subscribers (consumer and enterprise) and Internet customers.

Pittsburgh sits at a fantastic location for workloads for both the East Coast and the Midwest, with 160 million people accessible within a 500-mile radius, the highest of any major metropolitan area in the United States. The city offers a growing tech sector, with plenty of university-related research and startup culture bringing new initiatives to the greater region.

Campus Highlights

- **PIT01:** 1 MW N+1, scalable to 1.5 MW
- **PIT01:** Network diversity
- **PIT01:** Within 3 miles of downtown Pittsburgh

EdgeConneX Benefits

Capacity

State of the art data center with the flexibility to support deployments ranging from a single rack, to a large custom cage or pod, all the way to a build to suit data center any of which can further scale to meet future needs for growth.

Connectivity

Many leading NSP's and MSO's are deployed in our Pittsburgh Data Center and available for interconnection.

Capability

Purpose-built Tier-3 designed facilities with superior operating reliability, high-density power, and carrier-neutral support to satisfy any customers challenges and demands.

Cloud

Multi-hybrid cloud solutions for enterprises can be supported through our technology and solution partners meaning customers can locally access leading CSP's from our Pittsburgh Data Center.

Customer Experience

EdgeOS DCIM platform allows remote monitoring and management of your workloads.

Partners

Our world-class partners help EdgeConneX deliver the combination of solutions your business needs.

Pittsburgh, PA 15220

Technical Specifications & Configuration

Space

14,174 sq ft facility
4,556 sq ft of raised floor for tenant racks
Within 3 miles of downtown PIT and 19 miles of Pittsburgh International Airport
Customer work space available
WiFi network access and cell phone repeaters/boosters throughout the facility

Power

1 MW N+1; planned for 1.5 MW
Concurrently maintainable power in a minimum of an N+1 configuration includes: - PDU - UPS - Generators
Capable of 20+kW per cabinet
Capable of 600+ watts per sq ft
Ghost space not required for cooling power dense installations
Real-time branch circuit monitoring

Cooling

The facility has robust and redundant power and cooling to support any application, where temperature and humidity is monitored, controlled and managed to industry standards
30 inch raised/under floor forced air plenum
N+1 CRACs located in separate suites, maximizing customer designated areas

Security

Multi-stage security containment systems that use PIN and live video authentication

Mantraps and strictly enforced protocols regarding entry access
24/7 Color CCTV/video surveillance and >90-day online video storage
Interior managed security zones
National network operations center for security management
24/7 NOC services

Fire Suppression

Pre-action, zoned dry-pipe sprinkler systems with zoned maintenance aisles and separate suites

Network

Building POEs are diverse, with a variety of fiber conduits to physically diverse MMR's
CloudFlare, Cogent, Comcast, DQE, Crown Castle, EdgeCast, Lumen, PIT-IX, Verizon, WhiteSky, Windstream
Interconnection services available

Optional Services

Remote hands services for break fixes, configuration, and troubleshooting
EdgeConneX Services: design, build, implement, and maintain your equipment infrastructure
EdgeOS, our next generation data center operating system provides real-time visibility, including ticketing and SLA management for all EDC locations

Standards and Certifications

The PIT01 data center is SOC 2 Type 2, ISO 27001 and PCI DSS compliant.
